Subject: Comments on Cover Letter; Proposed Enclosure to go with Cover Letter

Attached please find my comments on the cover letter. I worked off of the version that Lynda had commented on. I incorporated the "understanding" that Will and Dennis have with the State and included language about deferral/postponement of penalties. I also put together an enclosure that would go with the letter that outlines the options the state could pursue to get over the bar to an approvable program for forestry that would meet the requirements of CZARA and NMFS for coho recovery. Obviously, this would need to be closely review by NMFS. (I assume that NOAA will coordinate with NMFS on the enclosure and the letter). The enclosure is pretty much what staff have put together for Dennis' and Will's discussions with the state.

I'm not entirely sure whether this cover letter and enclosure should affect the content of the FRN notice, so would like folks' thoughts on that.

I will be out of the office until January 5th. Have a wonderful holiday. Thanks for all the great work on this.

Subject: Review Requested by COB January 5 on Draft Federal Register Notice and Cover Letter to the State

Hi All,

The tech team is moving quickly to be ready for January 30 and needs your review of the draft Federal Register Notice and cover letter, ideally by COB January 5.

Our plan is to revise the draft decision and responses to comments documents to address all of your comments towards the end of the week of January 8, with technical editorial review conducted by our contractor no later than January 15. We will begin circulating the package (Federal Register Notice, cover letter, decision document and response to comments) soon after. Implementing the communications or roll out strategy should be in full swing during that time period.

Happy holidays!

Jayne
